

LUIM

A TJEPKE ZIJLSTRA FILM

FESTIVAL GUIDE

- All four movies are stand alones and mend to be presented and programmed as individual movies during a festival!
Please do NOT program them together in one block.

- If you don't select all four movies but just one or two, please let us know. It is no problem but don't forget to mention clearly the selected episodes.

- For your festival booklets and flyers please **copy-paste** the next LOGLINE:

LUIM is a highly associative film in four episodes. Small and intense sensations capture the feeling of youth. Exciting shots, vivid colors and contemporary fascinating sound design evoke a scintillating atmosphere with pure and poetic images. Sometimes close to the skin, at other times out in the vast emptiness of typically Dutch landscapes.

Hair blowing in the breeze, endless cycling against the wind and aimless hanging around in the park. Moments of desire and boredom; reality and the fantasy of your own moods.

LUIM 1 is the first part of a four-part film. (or)

LUIM 2 is the second part of a four-part film. (or)

LUIM 3 is the third part of a four-part film. (or)

LUIM 4 is the fourth part of a four-part film.
